Gary,

Looks like EQ can't handle SludgeComp 2 and 5. I will move forward with Veolila.

Thanks,

Beth Crawford

Beth,

Kristine and I did submit this for review yesterday. Below is the answer.

Please let me know if you would like to discuss.

Ross

This is not going to be a candidate for treatment. Naphthalene by itself is high enough that we know it's not something we can treat at USEM.

Subject: RE: SludgeComp2-5

Sure,

- 1.) Generation Process-Clean-up of a chemical recycling facility being overseen by US EPA Region VI. The company received chemicals from various generators and bulked them for resale, reuse and/or disposal. The facility went into bankruptcy and a trustee came into oversee the removal of various wastes at the site. No other process information is known.
- 2.) Chemical composition:
 - a. Organic Compounds 20-30
 - b. Sludge 40-50
 - c. Water 30
- 3.) D018

Ross,

Will you look at the analysis for Sludge Comp 2 and 5 and let me know if you can treat this material please. Right now I have four vac boxes worth of material.

Thanks,

Beth Crawford
